**ASSEMBLY SUBSTITUTE AMENDMENT 1,  
TO 2005 SENATE BILL 95**

September 9, 2005 – Offered by Representative UNDERHEIM.

- 1 **AN ACT to amend** 447.05; and **to create** 447.055 of the statutes; **relating to:**  
2 continuing education for dental hygienists.

---

***Analysis by the Legislative Reference Bureau***

Under current law, dental hygienists licensed by the Dentistry Examining Board (board) must apply to renew their licenses every two years. This substitute amendment prohibits the board from renewing a license unless a dental hygienist attests that he or she has complied with continuing education requirements created by the substitute amendment. In addition, when applying for renewal, a dental hygienist must attest that he or she has a current certification in cardiopulmonary resuscitation.

Regarding continuing education, the substitute amendment requires an applicant for renewal to teach, prepare, attend, or otherwise complete, during the two years preceding renewal, 12 credit hours of continuing education, including training in basic life support, cardiopulmonary resuscitation, and infection control. This requirement does not apply the first time that a person applies to renew a license, but applies each time thereafter. The required hours may be satisfied by independent study, correspondence, or Internet courses or programs. Not more than two of the required credit hours may be satisfied by training in basic life support or cardiopulmonary resuscitation, and not less than two hours must be satisfied by training in infection control.

The substitute amendment requires the Department of Regulation and Licensing (DRL) to biennially consult with the board and the Department of Health

and Family Services (DHFS) regarding the number of credit hours of continuing education required for renewal. After consultation, DRL may promulgate a rule setting the number of hours required for renewal between 12 and 20. Also after consulting with the board and with DHFS, DRL may promulgate rules requiring credit hours in specific clinical subjects. Under the substitute amendment, the board may require proof of compliance with the continuing education requirements.
